

### **Consumables for anesthesiology and resuscitation**

- Breathing circuit
- Silicone round mask for anesthesiology
- Endotracheal tube
- Set for catheterization of the central veins
- Catheter for peripheral veins
- Set for epidural and spinal anesthesia

### **Consumables for surgery**

- Scalpels, blades, clamps, mirrors, curettes , retractors .
- Wound drainage systems.
- Catheters, urological, venous, drainage.
- Hemostatic means and - materials.
- Suture material.

### **Consumables for Interventional Cardiology**

- Coronary stents , peripheral stents.
- Balloon catheters.
- Conduction catheters, diagnostic catheters.
- Coronary conductors, diagnostic conductors
- Introducers , Y - connectors .

### **Consumables for endoscopy**

- Racks are endoscopic, light sources, monitors, video cameras.
- Endoscopic instruments: endoscopes, forceps, scissors, needle holders.

- Operating tables;
- ultrasound scanners;
- Monitors of the patient;
- Power equipment for traumatologists;
- Endoscopy rigid/flexible;
- Operating equipment (lamps, coagulators);
- Surgical instruments;
- Computer tomograph;
- Magnetic resonance tomograph.
